Skin Contact: Wash skin with soap and water. Remove clothing and shoes if contaminated. Launder clothing before reuse.

Eye Contact: Flush eyes with water for several minutes. Remove contact lenses, if present and easy to do so. If eye irritation persists, get medical attention.

Ingestion: If conscious, rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention.

Most Important Symptoms: May cause mild eye irritation. Prolonged skin contact may cause irritation. Inhalation of vapors or mists may cause respiratory irritation. Swallowing may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Indication of Immediate Medical Attention Needed: Immediate medical attention is not required.

Notes to Physician: Treat appropriately

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Use water fog, foam, dry chemical or carbon dioxide (CO2) to extinguish flames.

Specific Hazards: This material will burn although it is not easily ignited. Combustion will produce carbon oxide and unidentified organic compounds.

Special Protective Equipment And Precautions For Fire-Fighters: Firefighters should wear full emergency equipment and a NIOSH approved positive pressure self-contained breathing apparatus. Cool exposed intact containers with water.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Wear appropriate protective equipment. Wash thoroughly after handling. See also: "Personal Protection "section 8.

Environmental Hazards: Avoid release into the environment. Report spill as required by local and federal regulations.

Methods/Materials for Cleaning up: Dike spill and collect with an inert absorbent. Place into closable containers for disposal. Collected material is handled in accordance with section 13 "Disposal Considerations".

7. HANDLING AND STORAGE

Precautions for Safe Handling: Avoid contact with eyes and prolonged or repeated contact with skin and clothing. Avoid breathing vapors and mists. Wash thoroughly after handling. Remove oil-soaked clothing and launder before re-use.

### Appropriate Engineering Controls

Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions. If the recommended exposure limit is exceeded increased mechanical ventilation such as local exhaust may be required.

### Personal Protection

#### Respiratory Protection:
None needed under normal use conditions with adequate ventilation. If exposure limits are exceeded, use a NIOSH approved respirator with organic vapor cartridges and particulate pre-filter. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene practice.

#### Eye Protection:
Safety glasses or goggles recommended if splashing is possible.

#### Skin/Body Protection:
No special protective clothing is normally required. If there is a potential for prolonged skin contact, wear a long sleeved shirt and apron. Neoprene or nitrile rubber boots when necessary to avoid contaminating shoes.

#### Hand Protection:
Use nitrile or neoprene gloves for prolonged or repeated skin contact.
